

How to change your home page using Internet Explorer

1. On the browser Menu bar, click on TOOLS and then INTERNET OPTIONS (OPTIONS)

2. On the Internet Options window, you should already be on the General tab

In this section, you have four options.

1. **Use Current:** clicking this makes the page you are currently viewing your home page.
 2. **Use Default:** clicking this makes MSN or whichever your original home page was your current home page again.
 3. **Use Blank:** clicking this makes Internet Explorer start with a blank page - this is useful if you have a slow Internet connection.
 4. **Typing in an address:** you may type in any web site address you wish in the field above the buttons. Consolidated's Tools & Links page is the recommended home page for our subscribers. This address is <http://www.ctctel.com/welcome.asp>.
3. Once you have entered the desired address or clicked the button you choose, simply click on OK at the bottom of the Internet Options window.

You can check to see if the new home page works by clicking on the home button the the toolbar at the top of the browser window.

*All screen captures are done on Windows XP with Internet Explorer 6.x
